

Academic Ordinance and Examination Rules

1. Attendance Requirements

Every student is required to maintain a minimum of 75 percent attendance in each registered course in order to be eligible to appear for the end-semester examination of that course. Attendance is computed separately for lectures, tutorials, and practical sessions.

A student whose attendance in a course falls below 75 percent shall be detained from the end-semester examination of that course and shall be required to repeat the course in a subsequent semester. The Dean of Academic Affairs may condone a shortfall of up to 10 percent only on the basis of a documented medical emergency.

2. Credit Requirements for Graduation

The minimum number of credits required for the award of the Bachelor of Technology degree is 160. These credits are distributed across program core courses, departmental electives, open electives, laboratory work, and the final-year project.

A student must earn at least 18 credits in open electives and complete a mandatory industrial internship of not less than eight weeks, which carries 4 credits, before the degree is awarded.

3. Grading System

The Institute follows a ten-point grading system. The grades and their corresponding grade points are: A+ equals 10, A equals 9, B equals 8, C equals 7, D equals 6, and F equals 0. A student securing grade F in any course is considered to have failed that course.

The Semester Grade Point Average, abbreviated as SGPA, is calculated as the weighted average of grade points earned in a semester. The Cumulative Grade Point Average, abbreviated as CGPA, is the weighted average across all semesters completed so far.

4. Examinations and Re-examination

A student is permitted a maximum of two re-examination attempts for any course in which a grade F has been obtained. Re-examinations are conducted at the end of each semester and require a separate registration through the examination portal along with the prescribed fee.

The weightage of the end-semester examination shall not exceed 50 percent of the total marks. The remaining marks are distributed among mid-semester examinations, assignments, quizzes, and laboratory assessments as decided by the course instructor.

5. Promotion and Academic Standing

A student must earn a minimum CGPA of 5.0 at the end of each academic year to be promoted to the next year. A student whose CGPA falls below 5.0 will be placed on academic probation and must clear the deficiency within the following two semesters.

A student who fails to maintain the minimum required CGPA for two consecutive years may be required to withdraw from the program, subject to review by the Academic Standing Committee.
